

THE BEAST

HITCH CARRIER

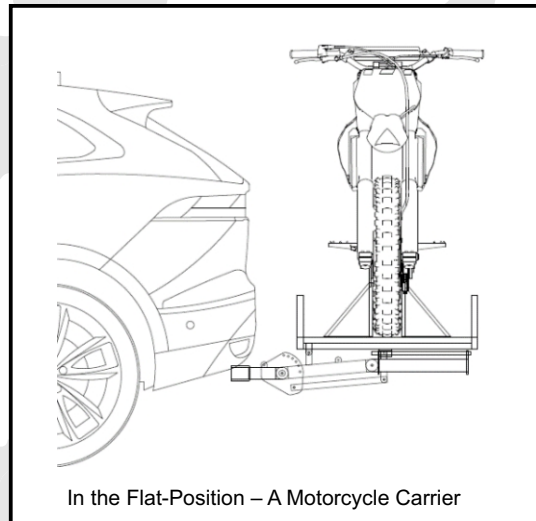

Giving our customer the ability to configure heights to maximize the functionality of our hitch carrier is our goal. We've designed our carrier to achieve the strength of a 'full load' carrier and the flexibility to give the user the best functional options for carrying and general usage possible. **The BEAST** is the premier carrier on the market!

With an impressive **800-pound distributed load** in the 'flat' position (600-pound on the edges) ... it can be used to carry the most difficult loads – Securely and Safely! Look at the load and functional options of **The BEAST**!

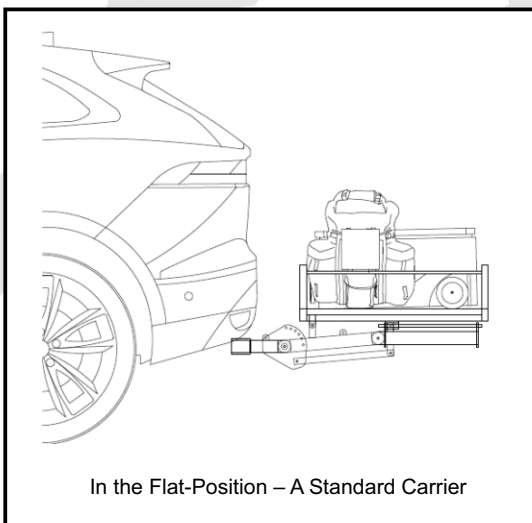

SECURE • DURABLE • COST EFFECTIVE

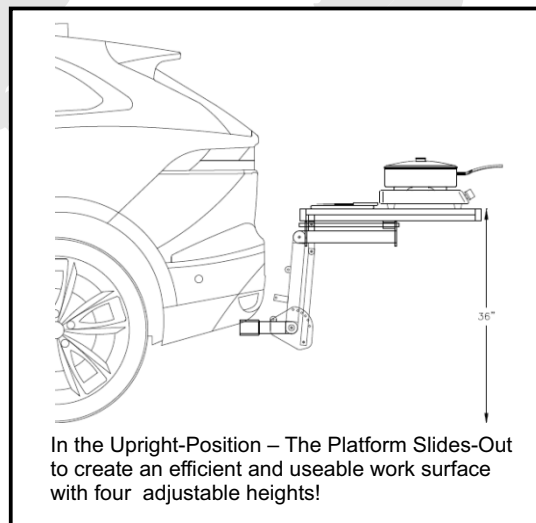

In the Flat-Position – A Bicycle Rack

In the Flat-Position – A Motorcycle Carrier

In the Flat-Position – A Standard Carrier

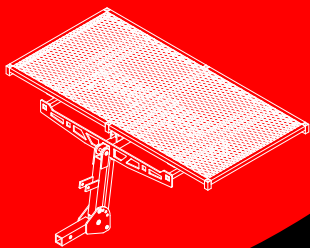

In the Upright-Position – The Platform Slides-Out to create an efficient and useable work surface with four adjustable heights!

PROUDLY CANADIAN

THE BEAST

HITCH CARRIER

And, there's MORE! With **ONE SIMPLE PIN** change, you can adjust the height of the carrier to meet your needs! The platform will **ALWAYS stay level** for any use you can imagine! The Adjustable Height and Sliding Platform allow for a multitude of use features.

Multi-Use Carrier can be used for ...

- Bike Carrier
- Camp Site table
- Work Surface
- Play Table
- Cook Top
- Hazardous Fluid hauler
- Use your imagination!

Included in ALL platforms:

- Bicycle posts - removable and lockable in place for secure transportation of your bike.
- Side Rails removable for a Ramp to move heavier items onto the platform.

With a 800 pound (365kg) distributed load capacity ... The BEAST is in a class by itself! Imagine the possibilities!
