FEATURES

- **Design Simplicity.**
- **Variations of installation configurations.**
- **Easy to stagger for improved layout patterns to maximize bike storage density.**
- **Easy tire cradle system for quick mounting and dismounting.**
- **Nothing to damage the rim or spokes!**
- **Lock using a cable looped through the rack frame for maximum security.**

Backed by our 2-Year Limited Warranty!

PRODUCT SPECIFICATIONS:

Frame Material: 10 Gauge, Cold-Rolled, High-Grade Steel

Fasteners: All components are SAE Certified for Strength, Durability and Performance

Coating: Powdered Polyester Resin (SandTEX Black Only)

Bike Accessibility: We designed the mechanism so the wheel rests into the fold-down frame - just pull down the pivoted frame and place the wheel into the slot and let go of the bike. The side rails keep the tire centred and secure while locking the bike up.

Securing the Bike: There is an angled cut-out in the frame to allow for a chain or wire rope to secure the frame to the wall mount fixture. This design ensures maximum security.

Bike Wheel Protection: As the wheel is mounted with rubber-only contact to the frame, nothing touches the rim or spokes! Critically important to owners of expensive bikes!

THE BADGER

VERTICAL BIKE RACK

We have designed our vertical bike rack to accommodate all types and styles of bikes from the small kids bikes to the hardcore expensive bicycle rider. Our focus on safety, security and durability puts our bike rack at the top of the consumer spectrum!

SECURE • DURABLE • COST EFFECTIVE

SECURE

Designed to be as structurally sound as possible, our frames and pivot-points exceed structural support requirements for material and composition. Our bike racks provide the most robust solution for maximum security.

DURABLE

Made with high-grade, 14 gauge steel, it is assembled using SAE Certified fasteners and coated with the latest in powder epoxy coating resin with exceptional rust and UV protection. The coating will withstand the rigors of everyday use.

COST EFFECTIVE

Well built does not mean more expensive. Canadian designed and Canadian Made, we keep the cost down by leveraging the expertise of our closest vendors to achieve a price point that is reasonable and sustainable. When space is a premium, our solution fits the best! A Win-Win.

Lifestyle products for your tools, toys, and equipment
